

## Prostate Surgery

- Months of recovery
- Higher risk of incontinence
- Higher risk of impotence

## TheraSeed® Treatment

- Approximately 45-minute procedure
- Recovery in about 2-3 days
- One happy significant other

If you've been diagnosed with prostate cancer, you should know about TheraSeed® treatment, a minimally invasive outpatient procedure that works with a lower risk of incontinence and impotence than surgery.<sup>1,2</sup> And the cure rates\* reported for TheraSeed® treatment are comparable to or better than surgery, supported by 12-year independent clinical studies. Make sure you're getting treatment with a proven seed. To find out more, visit [www.theraseed.com](http://www.theraseed.com) for a free video.

TheraSeed<sup>®</sup> Pd-103  
Remember the name.  
Forget the cancer.
